ADMIN CONSOLE > END-USER ONBOARDING

About this Section

About this Section

About onboarding

Welcome! This Help Center section contains content to assist with onboarding Bitwarden users and increasing adoption rates.

- **Welcome Email Templates**: Email templates to announce the Bitwarden Password Manager roll-out to your end-users, administrative users, and IT teams.

- **Admin Team Onboarding Emails**: Onboarding emails automatically sent to new Bitwarden Enterprise and Teams admins and owners. Read them all at once or grab them and adapt them to your team's needs.

- **End-user Adoption Emails**: Emails automatically sent to Bitwarden Enterprise and Teams admins and owners to help increase overall team adoption of their new password manager. Read them all at once or grab them and adapt them to your team's needs.

- **Onboarding Workflows**: Instructions for onboarding to users based on varied configurations.

Additional onboarding resources

- Rolling out the Bitwarden Password Manager to your organization: High-level overview of steps required for a successful Bitwarden rollout, with links to deep dives and key resources.

- Bitwarden Enterprise Password Manager implementation guide: Successfully launch Bitwarden Password manager in 4 phases.

- Prepare your trial for production: Get ready for a production implementation of Bitwarden after a successful trial period.

- Bitwarden posters – resource for office decor: Print and hang these in your office for a fun way to increase Bitwarden awareness and adoption amongst employees. Contact your sales representative for a complimentary offer.

- **Custom training**: Reach out to your Bitwarden sales contact to learn about training your admins, end-users, or your organization's trainers.
