D bit warden

Favorites

Any item can be designated as a Favorite to allow quick access to your most used items.

Even items shared with you from an organization can be designated a favorite, but this will only impact how they appear in your individual vault (i.e. you won't make that item a favorite for other users with access to the organization or collection).

⊘ Tip

Items marked as a favorite will appear at the top of your **a Vault** view in browser extensions and mobile apps, and in the *** Favorites** filter in your web vault and desktop apps.

Designating favorites

Designate any vault item as a favorite when you initially create it, or at any time by editing the item:

⇒Web app

On the Add or Edit screen, select the 🖈 Star icon in the bottom-right corner and Save the item:

Password Manager	All	dit login	×	+ New	
🗇 Vaults	Fil It	tem details	☆	wner	;
🕼 Send		/ Item name (required)			
\ll Tools $\qquad \qquad \lor$	C	My New Item		Ay Organiz	÷
