About the Learning Center

Welcome to the Bitwarden Learning Center! Learning Center articles guide users through video training courses, helping them become more proficient in Bitwarden offerings including Password Manager, Secrets Manager, Passwordless.dev, and reseller/MSP portals.

Each training course is centered around a unique stage in the Bitwarden journey:

- [First Steps with Bitwarden](#): This course will help you set up your Bitwarden account and prepare your devices for easy storage of passwords and sensitive information.
- [Get to know Password Manager](#): This course will help you get comfortable with navigating your Bitwarden vault, personalizing your view, and importing or creating new vault items.
- [Bitwarden Power Users](#): This course will help you take your Bitwarden vault beyond standard password management using security functionality like Send.
- [Bitwarden for Business Admins](#): This course introduces Bitwarden administrators to the features available to the Teams and Enterprise business plans.
- [Get to know Secrets Manager](#): This course will get you started with securely storing, sharing, and injecting infrastructure secrets in your development pipelines using Bitwarden Secrets Manager.
- [Bitwarden for MSPs](#): This course introduces Managed Service Providers (MSPs) to implementing Bitwarden Password Manager for your clients.
- [Get to know Passwordless.dev](#): This course introduces using Bitwarden Passwordless.dev to establish smooth passwordless authentication for your application's users.

More resources

Continue your Bitwarden journey with any of the following resources:

- [Help Center](#): Learn about any Bitwarden topic using the home for Bitwarden user documentation and education material.
- [Weekly live demo](#): Discover how Bitwarden safeguards your sensitive online information by signing up for a weekly deep dive.
- [More Bitwarden events](#): Attend other Bitwarden events to learn about unique and varied topics directly from the Bitwarden team.
- [Bitwarden Blog](#): Keep up do date with everything happening at Bitwarden and in the world of online security.
- [Community Forums](#): Get involved with other Bitwarden users talking about requested features and sharing their Bitwarden experiences.
