Sign up for Secrets Manager

Sign up for Secrets Manager

To start a Secrets Manager subscription, either start a new organization that includes Secrets Manager or upgrade your existing organization.

If you're creating a new organization, you can start a Secrets Manager enterprise trial to test a proof-of-concept and gain access to enterprise features like SSO and SCIM integrations, enterprise policies, self-hosting, event logs, and priority support. Sign-up for a for a free 7-day trial of Secrets Manager today.

The upgrade path will differ based on the current type of organization you're using:

> 💡 **Tip**
>
> The following steps are for existing Bitwarden users who are new to Secrets Manager.

⇒Free

If you're using a Free organization, you can use Secrets Manager for free to share secrets with one other user or upgrade to a paid plan to unlock more features. To add Secrets Manager to your free organization:

1. In the Admin Console, open your organization's **Billing → Subscription** view.

2. In the More from Bitwarden section, select the **Subscribe to Secrets Manager** checkbox.

> 💡 **Tip**
>
> If you want to upgrade to a paid organization to unlock more of Secrets Manager, select the **Upgrade plan** button instead. Choose from a **Teams** or **Enterprise** organization, complete the Password Manager subscription section, and complete the following steps to add Secrets Manager:
>
> 1. Select the **Add Secrets Manager** checkbox.
>
> 2. In the **User seats** field, specify the number of seats to purchase for Secrets Manager. This must be lower than or equal to the number of seats specified for your Password Manager subscription.
>
> 3. In the **Additional machine accounts** field, specify the number of machine accounts to add to Secrets Manager. Teams and Enterprise plans come pre-packaged with 20 and 50 machine accounts, respectively.

3. Select the **Save** button to activate Secrets Manager.

⇒Families

Bitwarden offers Secrets Manager subscriptions for Free, Teams, and Enterprise organizations. If you have a Families plan and would like to use Bitwarden Secrets Manager, simply create a new Free organization and sign up for Secrets Manager following these steps.

⇒Teams

If you're using a Teams organization, add Secrets Manager to your existing plan:

1. In the Admin Console, open your organization's **Billing → Subscription** view.

2. In the More from Bitwarden section, select the **Subscribe to Secrets Manager** checkbox.

3. In the **User seats** field, specify the number of seats to purchase for Secrets Manager. This must be lower than or equal to the number of seats specified for your Password Manager subscription.

4. In the **Additional machine accounts** field, specify the number of machine accounts to add to Secrets Manager. Your Teams plan comes pre-packaged with 20 machine accounts.

> ⓘ **Note**
>
> Adding additional **User seats** and **machine accounts** will be automatically scaled and added to your subscription. If you do not wish to have additional user seats and machine accounts automatically applied, select the **Limit subscription** and/or **Limit machine accounts** options.

5. Select the **Save** button.

⇒**Enterprise**

If you're using an Enterprise organization, add Secrets Manager to your existing plan:

1. In the Admin Console, open your organization's **Billing** → **Subscription** view.

2. In the More from Bitwarden section, select the **Subscribe to Secrets Manager** checkbox.

3. In the **User seats** field, specify the number of seats to purchase for Secrets Manager. This must be lower than or equal to the number of seats specified for your Password Manager subscription.

4. In the **Additional machine accounts** field, specify the number of machine accounts to add to Secrets Manager. Your Teams plan comes pre-packaged with 50 machine accounts.

> ⓘ **Note**
>
> Adding additional **User seats** and **machine accounts** will be automatically scaled and added to your subscription. If you do not wish to have additional user seats and machine accounts automatically applied, select the **Limit subscription** and/or **Limit machine accounts** options.

5. Select the **Save** button.
