manager-for-your-team-webcast/

🛡️ **bit**warden

Using a password manager individually is a security and productivity advantage for your digital life. Using a collaborative password manager at work can multiply those benefits across the organization.

Bringing a password manager to your company means driving buy-in, adoption, and ongoing enthusiasm for the solution.

We put together a webcast with tips we think are important when choosing a password manager for your team.

https://player.vimeo.com/video/432688741

If you don't have time to watch our web cast check out this presentation.

We have also compiled these tips as a document checklist here.
