Featured Highlights

New – inline autofill passwords

Inline autofill is a favorite method to autofill logins, credit cards, identities, and even passkeys. Now you can generate secure passwords with just one click. Plus, you have the option to choose what types of data are suggested to be autofilled. Start using [inline autofill](#) today.

Preview the new browser extension UI!

In October, Bitwarden shared news of an upcoming update to the browser extension design. Experience a preview version of the extension available through this direct link for the [Chrome web store](#). You can also [watch the walkthrough](#) from the Bitwarden design team and read the posts on [Reddit](#).

Bitwarden Bites: Get The Latest Product Updates

Passkey updates from FIDO Authenticate conference

The FIDO Alliance, which includes Amazon, Google, Microsoft, Bitwarden, and many more, recently introduced the credential exchange protocol to help standardize passkey portability across services and platforms – a huge step forward for the industry. Get all the latest passkey innovations and how they impact you in your favorite format: [video](#) or [blog](#).

Self-host Bitwarden Password Manager

Do you need to maintain data sovereignty for policy, personal preference, or other? Self-hosting might be your answer. Whether on a personal or business plan, you can self-host Bitwarden Password Manager. See if [self-hosting](#) is right for you.

Quick Tips: How-Tos for Popular Use Cases

Store passkeys in Bitwarden Password Manager

Did you know? If you use a Bitwarden browser extension or mobile app, you can safely save your passkeys within Password Manager. To get started, check out this [step-by-step guide to storing your passkeys](#).

Use Bitwarden on Apple Watch

Once you have the Bitwarden app installed on your iOS mobile device, you only need to 'Connect to Watch' to begin syncing with Bitwarden. This convenient connection makes it easy to access TOTP codes quickly. Use this short guide to get all the benefits of [Bitwarden Password Manager on your Apple Watch](#).

Access Bitwarden while in Firefox Private Windows

If you prefer to keep your search history private, but still want to use Bitwarden Password Manager, you can! This simple two-step process shows you how to use your Bitwarden Password Manager while browsing [Firefox private windows](#).

What Others Are Saying

Passkey adoption is up – what's next?

Thanks to the FIDO Alliance, much-needed guidelines are rolling out to make passkey usage across tech sites more consistent. Additionally, Microsoft is working on a passkey plugin for Windows 11 to allow users to store their passkeys in third-party password managers, like Bitwarden, for more secure sign-in. Stay ahead of the curve with the latest coverage from [Fast Company](#) and [TechRadar](#).

Best password managers of 2024 round up

You've found your favorite password manager, but maybe friends or family are still on the fence. If anyone needs a nudge to start protecting their digital life, send them these top password manager picks of 2024 from [PC World](#), [CNET](#), and [ZDNet](#).

In Case You Missed It

Five essential password manager features

Bitwarden Password Manager offers many features. To make the most of it, [test out some of these tips](#), including customizing your password vault item names with keywords (such as EMAIL), or using boolean fields as a checklist for vault entries.

That's it for now. For more product updates and online security tips, visit the [Bitwarden blog](#).

Until next time,
