Bitwarden apps

In the **web app**, Bitwarden defaults to your browser's language, usually determined by your designated system language.

The **browser extension**, **mobile app**, and **desktop app** default directly to your system language.

For more information on how to change the language of the Bitwarden Apps, please visit the [localization page](#) within the Help Center.

bitwarden.com website translations

- Translate the [bitwarden.com](#) website into several languages including
 - German, French, Spanish, Japanese, and Dutch
- Access languages via a dropdown menu in the lower right of any [bitwarden.com](#) page

Video translations

Learning Center translations

- [Learning Center](#) videos are hosted on Vimeo with independent translation options
- For Vimeo videos, users can click the CC button in the embedded video controls to enable subtitles in their preferred language
 - This option also has a Settings menu to modify subtitle display
